Experienced developer, strong front-end skills with JavaScript and React.js, great interest in learning more

WORK EXPERIENCE

Front-end Developer

Software Developer | CDMX | Remote

August 2022 - October 2022

- I took part in a national company called 'Mr job', laying out the main application, guided by a team that prioritized good practices in React, JavaScript.
- My contribution to this project was on styling the user registration, login and profile customization interfaces, using Tailwindcss.

Front-end Developer

Freelancer | Delicias, Chihuahua

September 2021 - December 2021

- I participated in a project of a local company, a financial system called 'Te Prestamos Dinero'.
- Built a desktop application with Electron.js and React.

Full-stack developer

Freelancer | Delicias, Chihuahua

January 2021 - March 2021

- i built a website using react.js, Firebase for a refrigeration business called 'Climas S. del Norte'.
- In this project i learned the ease of working using Firebase with Realtime Database and Firebase-Auth.
